# PUBLIC NOTICE

## DIVERSION OF GOODS IN TRANSIT

The Zambia Revenue Authority (ZRA) wishes to remind all Clearing Agents, Transporters, and the Public that diverting goods or vehicles in transit from an official route, inconsistent with transit route defined in the Public Roads Act 2002, is an offence. The offence also includes change of exit port from the declared one to another, without prior authorisation from ZRA.

Clearing Agents are therefore requested to ensure that they confirm port of exit with the transporter before a declaration is submitted to customs.

Any unauthorised change of route for passenger / transport vehicles in transit through Zambia attracts a penalty not only for the customs transit document but also for other cross-border permits issued by other agencies.

All transporters are also advised to ensure that their trucks use the declared route, as the transit goods have to exit through the declared port of exit to avoid fines or penalties and any other inconveniences arising from a change of exit port and rerouting of transit documents.
